PROFESSIONAL SUMMARY

Software Engineer with 5+ years of hands-on experience in full-stack development, primarily focused on front-end engineering. Builds scalable, high-performance web and mobile applications using JavaScript, TypeScript, React.js, Next.js, Gatsby.js, and React Native. Founder of Gopuna, a local services marketplace, where I own the product end to end — from the web platform to a cross-platform iOS/Android app. Focused on clean architecture, performance, accessibility, and reusable component systems.

CORE SKILLS

- **Frontend:** React, React Native, Next.js, Gatsby.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS (SCSS), Tailwind CSS, Three.js
- **State Management & UI:** Redux, Zustand, React Hooks, React Router, Storybook
- **Backend:** Node.js, Express.js
- **APIs & Integration:** REST APIs, GraphQL
- **Databases:** PostgreSQL, MongoDB, Mongoose, Oracle
- **Testing:** Jest, Cypress (E2E Testing)
- **DevOps & CI/CD:** Git, GitLab CI, CI/CD pipelines, Linux CLI
- **Mobile & Tooling:** React Native, Expo (iOS & Android)
- **Design & Collaboration:** Figma, Adobe XD

PROFESSIONAL EXPERIENCE

Software Developer — HelloCare.ai by Solaborate *Aug 2025 – Present*

- Build and maintain front-end infrastructure for a telehealth platform used in clinical environments.
- Implement responsive, accessible, and user-friendly interfaces in collaboration with product, design, and backend teams.
- Contribute to technical decisions and ensure scalable, maintainable front-end solutions.

Founder & Full-Stack Developer — Gopuna (gopuna.com) *2025 – Present*

- Founded and built Gopuna, a local services marketplace where users post requests and receive offers from verified local professionals (childcare, cleaning, repairs, gardening, and more).
- Designed and developed the full web platform end to end — front end, back end, and database — including the request/offer flow and provider verification.
- Currently building the Gopuna mobile app in React Native, shipping a single codebase compatible with both iOS and Android.
- Implemented multilingual localization (Albanian, English, German) across the UI and legal pages, plus SEO and social sharing metadata.

Software Developer — Starlabs *Aug 2021 – Aug 2025*

- Developed production-grade websites using Gatsby.js and Next.js with a strong focus on performance and SEO.
- Led static and SSR application implementation and owned front-end architecture, building scalable, reusable component systems for accessible, maintainable UIs.
- Collaborated with cross-functional teams to deliver client projects from design to production.
- Led 5 internship programs (2023–2024), each lasting 3 months, mentoring junior developers and reviewing their project work.

Freelance Developer

- Delivered various web projects, ensuring responsiveness and cross-platform compatibility through testing and optimization.
